

ACTIVBOARD+2... THE COMPLETE PACKAGE

With experience comes wisdom...

We pride ourselves on continually evolving and because we practice what we preach, or in our case – teach, we design and deliver solutions that meet the needs of educators and students worldwide.

Our Activboard+2 is more than simply an interactive whiteboard, it's a complete learning solution. Packed with incredible features designed to make your life easier, our latest creation is inspiration in a box.

Remarkably easy to install, Activboard+2 is height adjustable, so whether tall or small, learning has no limits. Even the smallest user can comfortably reach the top of the board easily. Available in two sizes, our Activboard+2 is easy to adjust and once adjusted, it stays put.

Furthermore it comes complete with an LCD super short throw projector with XGA resolution for minimal shadow and sharper imagery. It's security conscious too, with integrated user name display, pin-code and even a sonic alarm.

And if that's not enough, the 30 Watt stereo speakers and award winning software makes the Activboard+2 the complete package.

ACTIVBOARD+2, YOU'VE GOT IT IN ONE

COMPLETE WITH

Height adjustable mounting system 60cm (2ft) of height adjustment to position your Activboard+2 perfectly for the tallest and shortest of users.

CHOOSE FROM

Activboard Your choice of either a 78" or 64" Activboard to suit any classroom.

Software Your choice of our multi-award winning Activstudio or Activprimary software.

Accessories A range of optional installation accessory kits are available to tailor the system to the room layout.

AND ADD

Our Activ range of products are designed to work easily with each other, in a package to suit you...

Activwand 54cm long, reach with ease. With a comfy handle, mouse-style 'click' features, unique 'rollover' and 'hover' functions, it makes operating software and web pages with drop-down menus child's play.

Activsound Protect your voice and help your pupils to hear you with Activsound, a high-quality audio system. A wireless pendant microphone around the teacher's neck and speakers mounted in the classroom ensures every child doesn't miss a single word.

Activexpression The world's first learner response system with full sentence and character texting. It enables learners to express themselves in many ways – through text, numbers, likert scales... and for once they can use technology that they have outside the classroom, inside.

Activote Wireless, robust and user friendly, our egg shaped Activote devices really get the thumbs-up from students. It's a fast effective way to get opinions from the entire class and now supports up to 500 pods at one time. What's more you can view voting results in an at-a-glance graph to give instant results.

Activslate All the power of the Activboard in your hand. Interact with the Activboard with our A5 wire-free 'mini-board', small enough and tough enough to pass around the class or have one per desk.

Activtablet Acts just like a small Activboard. The best way to prepare lessons wherever you are, or for drawing, designing or tracing where you need to use a pen.

Activpanel A 15" LCD mini - board. Attach it to your PC and projector and view exactly what's on your screen. Ideal for lecture halls and large classrooms.
