

ACTIVSTUDIO ENTERPRISE EDITION SOFTWARE

Activstudio software has set the benchmark for interactive whiteboard software that others strive to emulate. Designed to replicate in digital format what users do on a whiteboard or flipchart, Activstudio enhances interactivity.

Enterprise Edition enables users in the corporate, training, emergency services, healthcare and military sectors to benefit from Activstudio's many features. Supplied with a set of resources such as flipchart backgrounds, objects, sample flipcharts, clipart images and much more, Enterprise Edition is ideally suited for use in the public and corporate markets. Typical flipchart backgrounds provided include maps, tables, charts, calendars and planners; all essential tools for meetings, briefing and training sessions.

All the usual features of Activstudio are, of course, included in the Enterprise Edition ensuring that presentations, training sessions and briefing remain visually appealing, exciting and engaging to both audience and user.

-  Easily create electronic flipcharts which may incorporate text, images, video clips, sound and web page content.
-  Option to use 'Windows' style interface, with a simple layout that only displays the tools most useful to meetings and training sessions.
-  Seamlessly hyperlink to any other kind of document that you may use in your presentations including Inspiration, Word, Excel or PowerPoint.
-  Existing presentations created in PowerPoint can be imported into Activstudio flipcharts.
-  'Collections' such as flowchart objects, military symbols, emergency service icons and medical images are supplied for free and cater for a wide variety of applications.
-  General clipart library numbers more than 6000 objects suited to general presentations.
-  'Pack and Go' feature makes it easy for companies to import their own specific resources for use in their Activstudio flipchart presentations.
-  Activstudio flipcharts can easily be re-used and adapted for individual sessions, saving time, effort and preparation.
